

MINDSYSTEMS AMODE[®]

Version 2

The smart all-in-one information management solution
Info Management | Visual ThoughtMaps | Project Plans

Release Notes:

Mindsystems Amode V1: Build 2779

Release Date: 10th Feb 2010

Bug Fixes:

Gantt Calculation Error – Using some currencies (i.e. Euro) on multi-project solutions caused corruption which resulted in negative 'tax' calculations.

Pathways on Export – On PCs with UAC or domain imposed permissions, automatic file titles for exporting were being blocked. Override was created to get past this problem.

PDF Export – Unable to remove total cost from export has been fixed.

Outlook Sync – Outlook tasks do not support times, only dates. Upon re-syncing Amode task times were being reset by Outlook to 00:00. This update command from the Outlook API is now being ignored to protect Amode task times.
